

ERMIA MAHTEMU

Aspiring Cyber Apprentice | Web Developer

Dumfries, VA • 571-364-9938 • erohailu@gmail.com • ermiasm.com • github.com/Ermiass

PROFESSIONAL SUMMARY

U.S. citizen and motivated technology professional applying for the Department of War (DoW) Cyber Apprenticeship Program. Hands-on experience in full-stack development, AI evaluation, and the ServiceNow platform, with a foundation in secure coding, log analysis, and analytical problem solving. Completed introductory cybersecurity, generative AI, and DoD Cyber Awareness training. Over 18, willing to obtain and maintain a U.S. Government security clearance, and committed to a 12-month apprenticeship pathway aligned to DoW 8140 work roles (Cyber Defense Analyst 511, Cyber Defense Infrastructure Support 521, Cyber Defense Incident Responder 531).

TECHNICAL SKILLS

Cybersecurity Foundations: CIA triad, OWASP Top 10, threat modeling, secure authentication (JWT/OAuth), HTTPS/TLS, input validation, log review, basic incident triage, DoD Cyber Awareness practices.

Networking & Systems: TCP/IP, DNS, HTTP(S), Linux command line, Windows administration basics, REST API security testing.

Languages & Frameworks: JavaScript (ES6), TypeScript, React, Angular, Node.js, Express, Nest, HTML5, CSS3, REST APIs, JSON, MVC.

Databases & Platforms: MS SQL, MongoDB, Firebase, ServiceNow, WordPress, Shopify.

Tools & Practices: Git/GitFlow, VS Code, Docker, Postman, Swagger, DBeaver, Chrome DevTools, Agile, code reviews, QA.

AI & Analysis: LLM output evaluation, prompt analysis, structured QA, applying AI to threat-style content review.

PROFESSIONAL EXPERIENCE

AI Contributor / AI Training Specialist 11/2025 – Present

Outlier AI (Aether Project) — Remote • Approx. 20 hours/week

- Evaluate large language model (LLM) outputs for accuracy, safety, and reasoning quality using structured analysis frameworks.
- Perform prompt analysis and quality assurance on AI-generated content, identifying vulnerabilities, hallucinations, and policy violations relevant to AI-enabled cyber threat analysis.
- Apply critical thinking and structured problem solving to improve AI reasoning, response accuracy, and adherence to safety guidelines.
- Document findings and provide clear, actionable feedback to model trainers, supporting iterative model improvement.

Web Application Developer Apprentice 03/2022 – 06/2023

Bitwise Industries / Alpha Works Technologies, LLC — Remote • 40 hours/week • U.S. Department of Labor Registered Apprenticeship

- Built responsive front-end interfaces using React, Angular, TypeScript, HTML5, CSS3, and JavaScript for client and internal projects.
- Developed an Angular-based virtual world map for Fresno Chaffee Zoo, improving guest engagement and accessibility.
- Integrated third-party REST APIs for online ordering, reservations, and real-time data features.
- Optimized website performance, reducing page load times by 40% and ensuring cross-browser compatibility.
- Participated in code reviews and Git/GitFlow workflows, applying secure coding practices, version control standards, and defect remediation.
- Collaborated with QA to identify, reproduce, and resolve defects; supported deployed sites and incident triage.

KEY PROJECTS

- Crypto Tracker (React, CoinGecko API) — Real-time market dashboard with secure API key handling and rate-limit management.
- Fullstack React Blog (Node.js, Express, MongoDB) — Authenticated CRUD app with REST API, input validation, and role-based access.
- Amazon Clone (Full Stack) — E-commerce platform with user authentication, cart, checkout, and product management.
- Additional builds: Weather Forecaster, Hotel Locator, Zoom Clone, NFT Project, Student Directory — published on github.com/Ermiass and ermiasm.com.

CYBERSECURITY COURSEWORK & SELF-STUDY

- Foundations of cybersecurity: CIA triad, threat modeling, common attack vectors (XSS, SQL injection, CSRF, phishing).
- Secure web development: OWASP Top 10, secure authentication (JWT, OAuth), HTTPS/TLS, secrets management.
- Networking & systems basics: TCP/IP, DNS, HTTP(S), Linux command line, log review, basic incident triage.
- Hands-on practice with Git, Docker, and REST API security testing using Postman and browser developer tools.

EDUCATION & CERTIFICATIONS

- DoD Cyber Awareness Challenge Certificate — Department of Defense.
- Introduction to Cybersecurity — IBM Networking Academy.
- Career Essentials in Generative AI — Microsoft and LinkedIn.
- Application Developer Certificate — U.S. Department of Labor Registered Apprenticeship.
- Full Stack Web Developer Certificate — Evangadi Tech Bootcamp.
- ServiceNow Micro-Certification — NextGen ServiceNow University.

ADDITIONAL INFORMATION

- Citizenship: U.S. Citizen, over 18 years of age; eligible to obtain and maintain a U.S. Government security clearance.
- Availability: Able to commit to the full 12-month DoW Cyber Apprenticeship Program; willing to be mobile and flexible across work assignments.
- Strengths: Strong work ethic, eager to learn, fast learner of complex technical material, analytical and problem-solving mindset.
- Professional reference: Sarah Cullen, Senior Program Lead, Bitwise Industries — scwebd@gmail.com, 917-687-3613.
